RESEARCH PROFILE

AI-enabled systems engineering for complex cyber-physical systems through digital twins, trustworthy artificial intelligence, model-informed machine learning, computer vision, explainable AI, and uncertainty quantification. Applications span transportation, energy systems, agriculture, and smart infrastructure.

EDUCATION

Aug 22, 2025	PhD, IT Convergence Engineering Kumoh National Institute of Technology, South Korea Dissertation: BatteryMetrix: A User-Centric Digital Twin Framework for Predictive, Explainable, and Secure Battery Management Systems.
Aug 20, 2021	MSc, Electronics Engineering Kumoh National Institute of Technology, South Korea Thesis: Improving Performance and Reliability of Wireless Communication Systems using Deep Learning.
Dec 12, 2014	BEng, Petroleum Engineering Federal University of Technology, Owerri, Nigeria

PROFESSIONAL APPOINTMENTS

2025 to Present	Distinguished Postdoctoral Fellow University of Wyoming Research in robust autonomous perception, digital twins for smart infrastructure and rural communities, and trustworthy AI for cyber-physical systems.
2024 (from Jan 4)	Visiting Research Scholar Michigan State University Digital twins and AI-driven decision support for climate-smart agriculture.
Sep 2022 to 2025	Graduate Research Assistant, PhD Networked Systems Laboratory, Kumoh National Institute of Technology Developed BatteryMetrix and BridgeSync; led multidisciplinary research in battery intelligence, transportation, security, and infrastructure.
Aug 2022 to Jul 2024	Research Specialist and Supervisor Kyungpook National University and Michigan State University (CLIMDES) AI-enabled sensing, digital agriculture, international collaboration, and workforce development.
Aug 2019 to 2021	Graduate Research and Teaching Assistant, MSc Future Communications Systems Laboratory, Kumoh National Institute of Technology Machine learning for next-generation wireless communication systems.
Apr 2017 to Jul 2019	Customer Experience Management Personnel and IT Buddy Sterling Bank PLC, Lagos, Nigeria Customer experience, branch technology support, and ATM operations.

Nov 2015 to Oct 2016

National Youth Service Corps Intern
Ministry of Energy, Alausa, Ikeja, Lagos, Nigeria
Energy-sector administration and public service.

SELECTED RESEARCH SYSTEMS

- OmniRestore**
Parameter-efficient universal adverse-weather image restoration for robust autonomous perception.
- BatteryMetrix**
Predictive, explainable, and secure digital twin framework for electric vehicle battery management.
- PANDA**
Digital twin and agent-based modeling framework for intelligent parking and urban mobility.
- BridgeSync**
Secure digital twin framework for intelligent bridge monitoring and sensor visualization.

GRANTS AND FUNDING

- 2023 to 2024

Research Team Lead, AI in Service Drive for Automotive Retail Dealerships
Metamoney AI and KIT
Total funding: \$100,000.
- 2022 to 2024

Research Team Lead, Metaverse and Digital Twin for Battery Management Systems
KIT Internal ICT Fund
Total funding: \$50,000.
- 2019 to 2025

Funded Researcher, National Research Programs
NRF Korea, MSIT Korea, IITP, and Brain Korea 21+
Contributed to laboratory-wide programs in ICT convergence, smart manufacturing, and talent development during my KIT appointments.

HONORS AND AWARDS

- 2023

Outstanding Paper Award
International Conference on Maritime IT Convergence
- 2022 to 2025

Brain Korea 21+ PhD Scholarship
Kumoh National Institute of Technology
- 2021

Excellent Publication Award
Brain Korea and Kumoh National Institute of Technology
- 2019 to 2021

Brain Korea MSc Scholarship
Kumoh National Institute of Technology

TEACHING, MENTORSHIP, AND SERVICE

- 2026 to Present

Project Research Mentor
University of Wyoming
Mentoring five research teams toward peer-reviewed publication across computer vision, mobility, and health sensing.

Aug 2022 to Jul 2024	Internship Lead and Research Supervisor Kyungpook National University and Michigan State University Recruited and supervised two international internship cohorts comprising more than 15 students; many coauthored peer-reviewed publications.
Ongoing	Conference and Journal Reviewer CVPR, ICML, NeurIPS, IEEE and interdisciplinary AI journals
May 2020	WomenTech Network Member Women in technology and STEM
Jun 2020 to Present	WomenTech Network Global Ambassador Women in technology and STEM
Sep 2024 to Present	Women in Machine Learning Member Mentorship-program mentor since Oct 1, 2024
May 2026 to Present	Global Mentorship Initiative Mentor Joined May 28, 2026
Jun 2026 to Present	Femme Alliance Network Mentor Joined Jun 8, 2026
Volunteer	Content Developer National Postdoctoral Association

TECHNICAL EXPERTISE

Programming: Python, MATLAB, R

AI and ML: PyTorch, TensorFlow, scikit-learn, physics-informed ML, SHAP, LIME, GradCAM

Modeling and Simulation: MATLAB/Simulink, PyBaMM, CARLA, Mesa, hardware-in-the-loop prototyping

Digital Twins and Visualization: Unreal Engine 5, CesiumJS, RealityCapture, Blender

Software and Deployment: FastAPI, REST APIs, MQTT, Docker, Git, edge deployment, HPC workflows
